PROFILE

UX and digital experience leader with 15+ years across product design, frontend engineering and people leadership, including 10 years at Oracle leading a team of ~30 designers and developers across 3 business units and 5 countries. Designs and ships AI-powered enterprise products, from strategy and UX through working, coded prototypes. Known for building strong teams, raising design quality at scale and turning complex enterprise workflows into clear, usable experiences.

CORE SKILLS

- **Leadership:** UX Strategy, Design Leadership, People Management, Mentoring, Stakeholder Management, Cross-functional Collaboration
- **Product & UX:** Enterprise UX, Product Design, AI/LLM Product Design, Design Systems, Information Architecture, Interaction Design, Prototyping
- **Technical:** Figma, FigJam, HTML, CSS, JavaScript, Responsive Design, Three.js, AI-assisted prototyping, Adobe Creative Suite

PROFESSIONAL EXPERIENCE

Independent UX & AI Design Consultant — Monarch Studio, Manila

July 2026 – Present · Contract

Consult for Monarch Studio, a Philippines-based AI and multidisciplinary design agency, across UX strategy, product design and frontend delivery.

- Designed and built the studio's flagship website as an immersive, interactive WebGL experience, positioning Monarch as a modern AI-first design agency.
- Turn Figma designs into production-ready, fully responsive frontends using AI-assisted design-to-code workflows, shortening the path from concept to launch.
- Advise on UX direction, brand expression and AI-enabled digital experiences for the studio and its clients.

UX & Digital Experience Leader (Senior Manager) — Oracle, Singapore

May 2016 – June 2026

Led UX strategy, design delivery and people development for enterprise applications and digital experiences across 3 business units and 5 countries.

- Led and developed a multidisciplinary team of ~30 designers, frontend developers and UX specialists, setting design standards and guiding performance and career growth.
- Led design of Oracle's AI Email Generator, letting marketing and CX teams create on-brand, ready-to-send HTML emails from simple prompts, reducing reliance on design and development support and speeding up campaign turnaround.
- Redesigned Oracle Autonomous Database monitoring dashboards for enterprise DBAs, cutting time-to-first-insight by ~30% and navigation-related support tickets by ~20%.
- Strengthened design system practices across business units, improving consistency and smoothing design-to-development handoff.
- Partnered with product, engineering and senior stakeholders across 5 countries to take products from concept to launch, balancing user needs, technical constraints and business goals.

- Delivered high-fidelity, coded prototypes for client and partner initiatives, including Changi Airport Group and Tata Motors, helping sales and product teams demonstrate Oracle Cloud and AI solutions.
- Ran the internship and apprenticeship program for 4 years, mentoring ~10 early-career designers and developers through structured training and live projects.

SELECTED PROJECTS

Full case studies and live prototypes at robertazucena.com

- **Oracle AI Email Generator** — Lead Product Designer. Enterprise AI platform turning simple prompts into on-brand, ready-to-send HTML emails for marketing and CX teams across business units.
- **Oracle Autonomous Database** — UX/UI Designer. OCI admin and monitoring dashboards with at-a-glance status cards and guided setup; ~30% faster time-to-first-insight, ~20% fewer navigation support tickets.
- **Great Eastern Claims AI Portal** — Lead Designer. 11-page insurance claims platform with AI-powered anomaly detection across vehicle, homeowner, building owner and manufacturer claims.
- **Changi Airport Group × Oracle Cloud** — Lead Designer. Co-branded cloud pricing and ROI tool comparing Oracle, AWS, Azure and GCP, with a 5-year TCO model and live stack configurator.
- **Tata Motors AI Workspace** — Lead Designer. 9-page AI assistant workspace for searching, managing and analysing enterprise assets.
- **Oracle Customer Moments (myDash)** — Lead Designer. Tool for sales teams to send personalised e-cards and video greetings, with editor, analytics and team reporting.
- **MUFG Asia Pacific** — Lead Designer / Frontend. Four-page corporate site built to pixel-accurate fidelity, verified across mobile and desktop.
- **Grab Employee Portal** — Lead Designer. Card-based company-wide portal consolidating fragmented internal tools, news and resources.

EARLIER EXPERIENCE

Interactive / Digital Art Director — Ace:Daytons Communications
April 2015 – April 2016

- Led digital creative direction for web and interactive campaigns, taking concepts and visual systems from brief to launch.

UI/UX Designer & Frontend Developer — Clubvivre, Singapore
May 2014 – April 2015

- Designed web and app experiences and built them in HTML, CSS and JavaScript, from wireframe to launch.

Interactive Designer / Frontend Developer — Vocanic, Singapore
May 2010 – May 2014

- Designed and built interactive web experiences, refining animations and micro-interactions to improve usability and engagement.

RECOGNITION

- Judge, CSS Design Awards (international web design awards), 2017 – 2020

EDUCATION

Bachelor of Science in Information Technology — Mapúa Institute of Technology, Manila
