Technical: HTML · CSS · JavaScript · Responsive Web · Figma · Figjam · Adobe Creative Suite

CAREER HIGHLIGHT

Progressed from hands-on frontend development and digital design into UX and product leadership, ultimately leading multidisciplinary teams and enterprise digital initiatives at Oracle across 3 business units and 5 countries / regions.

PROFESSIONAL EXPERIENCE

Senior Manager, UX & Digital Experience

Oracle — Singapore | May 2016 – April 2026

Led UX strategy, digital experience delivery and people development for enterprise applications across multiple business units.

- Led and mentored a multidisciplinary team of approximately 30 designers, developers and UX professionals.
- Shaped UX strategy and delivery across 3 business units, balancing user needs, technical constraints and business priorities.
- Partnered with product, engineering and senior stakeholders across 5 countries / regions from concept through delivery.
- Drove improvements in UX practices, design systems and digital experiences across complex enterprise environments.
- Applied AI-driven solutions, machine learning concepts and automation to improve usability, personalization and efficiency.
- Directed internship and apprenticeship programs for four years, mentoring approximately 10 participants through structured training, real-world projects and professional development.

SELECTED PROJECTS

Oracle Autonomous Database — UX/UI Designer

Scope: OCI administration and monitoring dashboards for enterprise DBAs. Redesigned dashboard information architecture with at-a-glance status cards and guided setup flows, reducing time-to-first-insight by approximately 30% and navigation-related support tickets by approximately 20%.

Oracle AI Email Generator — Lead Product Designer

Scope: Enterprise AI-powered email creation platform for Oracle Cloud marketing and CX teams across multiple business units. Enabled non-technical teams to generate consistent, on-brand, ready-to-send HTML emails from simple prompts, reducing reliance on design and development support and accelerating campaign turnaround.

Grab Employee Portal — Lead Designer

Scope: Company-wide employee portal covering tasks, news and workplace resources. Designed a card-based experience that consolidated fragmented internal tools, simplifying navigation and improving access to everyday information and tasks.

EARLIER EXPERIENCE

Interactive / Digital Art Director

Ace:Daytons Communications | April 2015 – April 2016

Led digital creative direction across web and interactive campaigns, bridging visual design, UX and frontend execution.

- Developed digital concepts and visual systems from brief through launch.
- Collaborated with designers, developers and marketing stakeholders to deliver campaign experiences.

UI / UX Designer & Front End Developer

Clubvivre — Singapore | May 2014 – April 2015

Designed web and app experiences while translating concepts into working HTML, CSS and JavaScript.

- Worked closely with product managers and developers from wireframes through launch.
- Refined experiences using user feedback and responsive design principles.

Interactive Designer / Front End Developer

Vocanic — Singapore | May 2010 – May 2014

Built interactive digital experiences across design and frontend development.

- Collaborated with designers, developers and stakeholders to deliver polished web experiences.
- Refined animations, transitions and micro-interactions to improve usability and engagement.

LEADERSHIP & TALENT DEVELOPMENT

Four years leading internship and apprenticeship programs, combining structured learning, practical project exposure and ongoing mentorship. Approximately 10 interns and apprentices were mentored.

TOOLS & TECHNOLOGY

Design: Figma, FigJam, Adobe XD, Photoshop, Illustrator · Frontend: HTML, CSS, JavaScript, Responsive / Fluid Design, BrowserStack · Email: Litmus, Mailchimp

EDUCATION

Bachelor of Science in Information Technology — Mapúa Institute of Technology, Manila | 2000 – 2005

AWARDS & RECOGNITION

CSS Design Awards — Panel of Judges | 2017 – 2020
